## Funding a Quality, Christian Education at CCS

### Make Christian Education a Priority

The first step is to view Christian education as an investment and not an expense. It is impossible to place a value on the importance of a quality Christian education in the lives of our children. Like most things in life, what we value the most will receive the greatest amount of attention in our budget. Over and over again, people have found that once the commitment is made, God provides the rest.

### Seek Alternative Funding Sources

Most of us have family and friends that care deeply about our children. Many of them share our commitment to Christ and Christian education and would be willing to help invest in the education of a loved one. Ask your church if they provide any type of scholarship money for their families that have children enrolled in a Christian school.

### Get involved with SCRIP

CCS offers the opportunity for families to use the ShopWithScrip.com program. This program allows you to purchase items you would normally purchase using SCRIP gift cards. Participation allows you to accrue quarterly credit during the year that can be applied towards tuition or your child(ren)'s lunch accounts. Contact CCS main office for more information.

### Apply for Financial Assistance

CCS offers a limited amount of needs based scholarships through FACTS for families that qualify and have a child(ren) K-12<sup>th</sup> grade. Apply at [online.FACTSmgt.com/aid](http://online.FACTSmgt.com/aid). Application fee of \$30 applies and is non-refundable. Contact the main office for more information.
