

Upper Level Science Teacher

CCS is looking for an experienced and passionate Science teacher for our Upper Level students (grades 8 - 12). Core subjects on annual rotations - Earth Science, Physics, Biology, Chemistry and possible elective/STEM. The position requires an ability to plan, organize and implement an approved curriculum.

Our ideal candidate will utilize student-centered, differentiated instruction and varied teaching techniques to create a Christian environment where students flourish. The main objective for our science teacher is for students to more fully understand the science material they are learning and advance student's curiosity and interest in science.
